WWW.GREATDAYINC.COM

Already America's leading manufacturer of specialty accessories for trucks, SUV's Jeeps, ATV's and UTV's, Great Day continues to develop new and unique products at an amazing pace. The popular Great Day line is made exclusively in the USA and now includes over 100 items.

Great Day is located in Tallulah, Louisiana, a small farming community that sits in the heart of the delta—almost within "spittin" distance of the mighty Mississippi. Our product line has one common denominator—everything we offer is the best of its kind—unique, dependable and functional. We are a little different from the norm—we refuse to compromise quality, to cut corners. Each of our products begins as an idea to fill a legitimate need—then continues the process to perfection.

We are one of the many small manufacturers in this country that hangs onto the belief that; with God's help, combined with a lot of hard work and persistence, quality products can be produced competitively here in the US—that America can be restored to the level of honor and respect it once enjoyed.

Great Day, Inc.—A Company on the move!

Overhead Gun Rack **CL1500**

For full size crew cabs.
Other models available. See pages 8/9

Great Day's Center-Lok Overhead Gun Rack for most full-size Crew Cab pickup trucks with center doorposts. It employs our patented "Opposing Forces" installation system—an incredible system of locking the gun rack solidly into place in a matter of a couple of minutes. No drilling, no screws or bolts required!! No alterations to the roof to void the manufacturer's warranty. The Center-Lok is so unique, tough and functional; it comes with an unconditional lifetime warranty!

The Center-Lok Gun Rack fits most full-size Crew Cab pickups with center doorposts. The Center-Lok Gun Rack positions gun(s) snugly against the headliner of the truck—totally out of sight of passers-by—providing abundant headroom for the driver and passengers. The gun(s) are held securely in cushioned, moldable gun clips with Velcro straps and adjust independently to different size gun(s).

The Center-Lok is framed in aircraft aluminum and finished in a handsome, durable coat of powder-coat enamel. It expands from 48" to 54".

Lawn Pro Hi-Hitch **LNP HH650**

For lawn tractors

Riding Lawnmowers have the power and the low center of gravity to be natural towing machines. With the Hi-Hitch's dual attachment points—one for a trailer hitch ball and one for a hitch pin—a regular riding mower can be transformed into one of the handiest tools ever for pulling small trailers.

Whether you're hauling off trash on a utility trailer, bringing up firewood or just positioning your ski boat in your garage, the Hi-Hitch gets the job done!

The Hi-Hitch adds 12" of height to the lawnmowers tongue. The LNP HH650 is braced and positioned perfectly at just the right height to keep trailers level and well-balanced. With super-strong aircraft aluminum construction, the Hi-Hitch provides a lot of "horsepower" with very little weight added to the machine. Its weight capacity is whatever the lawnmower's stated tongue capacity is. Installs easily and accepts all conventional trailer-hitch balls (trailer hitch ball not included).

The Hi-Hitch mounts to most conventional riding lawnmowers with a minimum of drilling or modifications. Brackets mount 12" - 14" wide.

866-649-1918

Overhead Gun Rack QD850-OGR

For UTV's with 23"-28" roll bar depth
Other models available, see page 11

The QuickDraw Overhead Gun Rack is the perfect way to safely keep your firearms at your fingertips. The QD850-OGR holds two guns securely in the inside roof area of most popular brands of UTV's. Great Day has a unique mounting system that installs in just minutes without any drilling or bolting.

The gun rack features super-soft cushioned gun clips that provide easy access and secure transport. The QD850-OGR installs on UTV's with regular tops. (Will not work on tops that prevents access to rear top frame)

Load-A-Pup LP500

For recreational boating
Other models available.

With the Load-A-Pup, you and your dog can enjoy all the fun associated with recreational boating. Simply hook the Load-A-Pup to your boat's boarding ladder and you are ready for action. Your dog can leave and re-enter the boat at will.

The Load-A-Pup platform is constructed of lightweight, aircraft aluminum and includes gripping ridges to insure solid, safe footing as your dog climbs back into the boat after a swim. The Load-A-Pup's handsome, off-white, powder-coat finish not only complements the factory finish or color of any boat, but will help to insure years of dependable service.

The Load-a-Pup fits any boat that has a boarding ladder. It weighs only 7 lbs. and has a generous 13.5" X 20" platform. The maximum weight capacity is 200 lbs. It comes complete with security straps, installs in seconds and folds flat for compact storage when not in use.

Quick-Draw Vertical Gun Rack

QD800 For Trucks, SUV's, Jeeps, UTV's or Golf Carts
For adapter plates see page 10

The Quick-Draw Gun Rack fits in most pickup trucks, most side-by-side utility vehicles and golf cart style vehicles.

It mounts to your preferred angle for quick access and maximum use of passenger space. The Quick-Draw holds two guns (rifle, shotgun or muzzleloader) securely and protected in a soft, cushioned cradle. The QD800 has super-soft clips designed to form to the exact size of the stock or forearm of the gun it is holding.

To convert the QD800 to a case rack (QD800-CR), you'll need our conversion kit, QD800-CRCK.

Also available in a quick release model - the **QD800S**. The Quick-Draw Supreme has all the great features as the regular Quick-Draw. Once the permanent mounting plate is secured, the Quick-Draw Supreme can be installed or removed in seconds—with just a few turns of the 4 detaching screws.

QD800-CRCK, Quick-Draw Conversion Kit allows this rack to be converted into a Case Rack.
QD800 CLIPS, Replacement Gun Clips

Powerloader

PL250 For ATV's & UTV's

The PowerLoader, added to your ATV, UTV or custom cart is a hunter's best friend, a rancher's right hand, a homeowner's helper! Load big game without physically picking up one pound! Load firewood, tool-boxes, ice-chests, sacks of feed or seed, bales of hay, building materials, fence posts - you name it! Turn 2 and 3 man jobs into routine, single-handed tasks.

The PowerLoader is constructed of super-tough, aircraft aluminum and adds only 29 lbs to the weight of the vehicle. The PL250 has a 350 lb. capacity and is powered by a regular winch (not included).

The PowerLoader installs onto most 4-wheeled ATV, "side-by-side" utility vehicle or custom golf cart style vehicles in just minutes.

When installing a PowerLoader onto an ATV, UTV, or Custom Cart, the purchase of an additional Mounting Kit may be required in order to position the PowerLoader frame far enough away from the vehicle to allow the unit to work properly. The kit includes brackets, security straps and mounting hardware.

Mounting Kits: (may be required)

PLUT-1

PLUT-G

PLUT-HV

Power-Pak Bow Rack

556

For ATV's

The Power-Pak Bow Rack provides maximum protection for both compound and recurve bows.

The 556 has an aircraft aluminum frame, includes all mounting hardware and features quick release loading and removal. The Power-Pak can be adjusted to fit any length or style of bow.

Power-Pak Crossbow Rack

556-CB

For ATV's

The 556-CB uses the patented "Tension-Lok" holding system that grasps the stock of the crossbow securely, no other component is touched, protecting all the sensitive mechanical settings. The base of the Power-Pak Crossbow Rack is constructed of aircraft aluminum and installs in just minutes with regular tools.

Power Pak Gun Rack

557

For ATV's

The Power-Pak 557 includes two sets of holding cradles that will absorb the shock of riding an ATV over rough terrain—protecting two firearms and scope settings. Another great thing about the Power-Pak— it mounts almost anywhere and in any direction—on the front rack, back rack, vertically or horizontally!

Center-Lok Overhead Gun Rack

CL1500 - Holds 2 Guns (not included) (shown)

CL1501 - Holds 1 Gun (not included)

CL1502T - Holds 2 Tactical Guns (not included) (shown)
For SUV's or Crew-Cab Trucks

Great Day's Center-Lok Overhead Gun Rack for SUV's and most full-size Crew Cab pickup trucks with center doorpost .

It employs our patented "Opposing Forces" installation system . No drilling, no screws or bolts required . The Center-Lok Gun Rack positions gun(s) snugly against the headliner of the truck—totally out of sight of passers-by—providing abundant headroom for the driver and passengers. The gun(s) are held securely in cushioned, moldable gun clips with Velcro straps and adjust independently to different size gun(s).

The Center-Lok is framed in aircraft aluminum and finished in a handsome, durable coat of powder-coat enamel. It expands from 48" to 54". Weighs only 9 lbs . This size gun rack is available in three models: CL1500, CL1501, CL1502T.

Center-Lok Overhead Case Rack

CL1501-OCR - Holds 1 Case (not included)

For Crew-Cab Trucks or SUV's

The CL1501-OCR utilizes the patented Center-Lok "opposing forces" system that provides quick and sturdy installation without any drilling or bolting. The generous-sized holding cradles for the CL1501-OCR will handle most soft cases designed for regular firearms. The cradles are moldable to adjust to different size cases and will hold one encased firearm securely in place with Velcro straps. The CL1501-OCR is designed for SUV's and Crew-Cab pickup trucks with center doorposts 48" -

Center-Lok Overhead Bow Rack

CL1503-OBR - Holds 1 Bow (not included)

For Crew-Cab Trucks or SUV's

Great Day's Center-Lok Overhead Bow Rack for full-size crew-cab pickup trucks. No drilling, screws or bolts required. The bow is held securely in cushioned, moldable clips with Velcro straps and adjusts independently to different size bows. The CL1503-OBR is framed in aircraft aluminum and finished in powder-coat enamel. It expands from 48" to 54". Weighs only 8 lbs

Center-Lok Overhead Gun Rack

CL1600-OGR - Holds 1 Gun (not included)

For Mid-size Crew-Cab Trucks or SUV's

The CL1600 Overhead Gun Rack expands to fit 4-door vehicles with center door posts measuring 45" to 49" wide. It features cushioned cradles that will hold and transport a single firearm. The rack installs in just minutes without any drilling or bolting. It is constructed of aircraft aluminum and is finished in super-tough, black powder-coat enamel.

Center-Lok Overhead Case Rack

CL1601-OCR - Holds 1 Case (not included)

For Mid-size Crew-Cab Truck or SUV

The CL1601-OCR Case Rack features generous-sized, cushioned cradles that hold ONE encased firearm securely next to the headliner of the vehicle. The frame of the unit is constructed of aircraft aluminum. The CL1601-OCR installs in just minutes without any drilling or bolting. This rack expands from 45" to 49" and installs in most 4-door mid-sized vehicles with center door posts.

Quick-Draw Double Crossbow Rack

QD802-CB - Holds 2 Crossbows

For UTV's

Great Day's Double Crossbow Rack transports two full-sized crossbows securely held in place on a unique cradle mounted to the sides of the UTV bed. Made of aircraft aluminum and includes cushioned, Velcro-secured cradles in which the crossbows are held in place. The unit includes mounting plates and hardware for solid attachment to UTV beds.

Quick-Draw Sporting Clays Gun Rack

QD804-SC - Holds 4 guns (not included)

For UTV's

QD804SC UTV Gun Rack is designed to fit all popular utility vehicles that include cargo beds. It attaches securely to the sides of the cargo bed and positions gun holders for two firearms on each side. The gun holders are strategically placed at an upward angle to prevent the firearms from being pointed at participants or bystanders.

The QD804SC is framed in heavy-duty aircraft aluminum and includes cushioned gun clips that can be set at different heights and are moldable to conform to size of the firearms.

Quick-Draw Locking Vertical Gun Rack

QD810-LGR - Holds 1 gun (not included)

For Trucks, SUV's, Jeeps, UTV's or Golf Carts

The QD810-LGR's "stand-up" design puts the firearm right at the user's fingertips and the locking mechanism makes it accessible only to its owner. The QD810 lock operates with a key or electronically. The QuickDraw Locking Gun Rack's frame is constructed of aircraft grade aluminum and includes two soft-cushioned cradles for holding the firearm in place. It comes complete with either regular bolts or lag bolts for secure attachment to the floor of the vehicle. It attaches to the flat floor surfaces of most trucks, SUV's, Jeeps, UTV's or golf carts. The electronic controls operate off of any standard 12 volt battery system.

Quick-Draw Vertical Case Rack

QD800-CR - Holds 2 Cases (not included) For Trucks, SUV's, Jeeps, UTV's or Golf Carts

The QD800-CR holds two regular firearms in soft cases mounted vertically in the floor of the vehicle. The cases are held in place in cushioned cradles and held securely with Velcro straps. The QD800-CR allows the angle of the rack to be adjusted for the user's preference. The frame of the QD800-CR is constructed of aircraft aluminum and finished with super-tough black powder-coat enamel. UTV's with an elevated center ridge may require a special mounting plate.

Quick-Draw Overhead Bow Rack

QD850-OBR Holds 1 Bow (not included) (shown)

For UTV's and JEEP Wranglers (pg. 12) with -23" - 28" roll bar

The QuickDraw Overhead Bow Rack is the perfect way to transport a bow on a utility vehicle. The Overhead Bow Rack holds your bow securely in the inside roof area of the UTV. It has two soft, cushioned cradles that prevent any disturbance to the bow's settings. Also, for utility vehicles with covers on the top, the bow is totally protected from the elements.

Also available in a larger model:

QD851-OBR Holds 1 Bow (not included)

For UTV's with -28" - 35" roll bar depth

Quick-Draw Overhead Crossbow Rack

QD850-OCBR - Holds 1 Crossbow (not included)

For UTV's with 23" - 28" roll bar depth

The Overhead Crossbow Rack is designed to mount under the roof of most popular brands and models of utility vehicles. The QD850-OCBR installs quickly with Great Day's patented "opposing force" mounting—no drilling or bolting needed. The crossbow rides The QuickDraw Overhead Crossbow Rack is constructed of aircraft aluminum and finished in tough black powder-coat enamel.

Quick-Draw Overhead Bow Rack for JEEP

QD857-OBR-JEEP Holds 1 Bow (not included)

For JEEP Wrangler

Great Day has the perfect Bow rack for the Wrangler—installs in seconds inside the front headliner—providing safe and protected transport. The QD857-OBR-JEEP holds regular compound or recurve bows in soft, foam-lined clips—held securely with handy Velcro straps. Includes 2 adjustable tabs to support the bow string and keep the bow level. The QuickDraw Bow Rack expands out from 42 to 48 inches and locks in place to the Wrangler's side roll bars with Great Day's patented "opposing force" installation system. The QuickDraw is constructed of aircraft aluminum, finished in black powder-coat enamel, and weighs only 6 lbs.

Quick-Draw Overhead Gun Rack for JEEP

QD857-OGR-JEEP Holds 2 Guns (not included)

For JEEP Wrangler

Great Day has the perfect gun rack for the Wrangler—installs in seconds inside the front headliner—providing safe and protected transport. The QD857-OGR-JEEP holds two full-size guns (with or without scopes) in soft, foam-lined gun clips—held securely with handy Velcro straps. The QuickDraw Gun Rack expands out from 42 to 48 inches and locks in place to the Wrangler's side roll bars with Great Day's patented "opposing force" installation system. The QD857-OGR-JEEP is constructed of aircraft aluminum, finished in black powder-coat enamel.

Quick-Draw Overhead Tactical Gun Rack for JEEP

QD857-OGR-JEEP Holds 2 Guns (not included)

For JEEP Wrangler

The QuickDraw Tactical Overhead Gun Rack is especially designed to transport tactical-styled firearms in Jeep Wranglers. The QD857-OGR-JEEP expands out from 42 to 48 inches and locks in place to the Wrangler's side roll bars with Great Day's patented "opposing force" installation system. The QD857T-OGR-JEEP can be installed or removed in an amazing two minutes! No drilling, no bolts or screws required. This QuickDraw Gun Rack is designed specifically to accommodate the unusual shape of tactical weapons. The weapons are positioned snugly against the truck's headliner in cushioned, moldable cradles. Instant access to the weapons is as easy as pulling two Velcro tabs. The QD857T-OGR-JEEP is constructed of aircraft aluminum, finished in black powder-coat enamel.

Center-Lok Overhead Case Rack

QD870-OCR For UTV's Holds 1 Case (not included)

The Quick-Draw Overhead Case Rack, QD870-OCR, uses "opposing forces" installation system. The cushioned holding clips are designed to hold ONE firearm enclosed in a soft case. The QD870-OCR fits roll bars that measure 23"-28", front to back. The Center-Lok Overhead Gun Racks are constructed of aircraft aluminum and finished in tough black powder-coat enamel. Great Day offers these case racks in many models.

MODEL #'s:

QD870-OCR Front-to-back measures 23"-28"

 QD877-OCR-JEEP Side to side measures 42"-48"

Power-Ride Gun RACK

UVPR900 Holds 2 Guns (not included)

For UTV's with 50" -64" roll bar width

The Power-Ride Rack can be positioned to either the inside or outside of the vehicle's frame. The holds two guns in protective, super-soft cradles with Velcro straps. With the turn of two wing-knobs, the Power-Ride can be installed or removed in seconds. The rack is constructed of tough aircraft aluminum and has a hard-as-nails black powder-coat paint finish.

Available in two other models:

UVCCPR770-MS 42" - 56" roll bar width

UVCCPR700 36" - 50" roll bar width

We also offer a conversion kit that allows you to use this rack as a Bow Rack, UVCCK700-701 or Case Rack, PRCRCK

Power-Ride Bow RACK

UVPR901 Holds 1 Bow (not included)

For UTV's with 50" -64" roll bar width

The Power-Ride Rack can be positioned to either the inside or outside of the vehicle's frame. The UVPR901 holds one bow in protective, super-soft cradles with Velcro straps. The UVPR901 mounts on a unique bracket that attaches to or detaches from the rear of the UTV cab frame in just seconds. The tension-loaded holding cradles grip the limbs of any compound or recurve bow firmly and totally prevent any other part of the bow from touching anything. The rack is constructed of aircraft aluminum and has a black powder-coat paint finish.

Available in two other models:

UVCCPR771-MS 42" - 56" roll bar width

UVCCPR701 36" - 50" roll bar width

We offer a conversion kit that allows you to use this rack as a Gun Rack, UVCCK701-700 or a Case Rack, PRCRCK

Power-Ride Double Case Rack

UVPR905CR Holds 2 Cases (not included)

UTV's with 50" -64" roll bar width

The Power-Ride Gun Case Racks uses Great Day's patented installation system that attaches to the vertical frame bars of the vehicle and can be secured in just minutes. The unit includes two sets of holding cradles that will transport two firearms in regular soft cases. The Power-Ride frame is constructed of aircraft aluminum and finished in super-tough black powder-coat enamel.

Available in two other models:

UVCCPR775-CR M/S 42" - 56" roll bar width

UVCCPR705-CR 36" - 50" roll bar width

Great Day has a wide selection of gun clips to suit your needs.

- RC-2 *Ready Clip* Double Clip, Straight Mount, Pair (shown)
- OD-TR Quick-Draw Tree Rack (shown)
- OD-WR Quick-Draw Triple Wall Rack

Power-Pak Treestand Rack

558

For ATV's

The Power-Pak Treestand Rack is designed to transport a treestand on an ATV in total silence. The Power-Pak cradles the treestand in cushioned, camo covered holding arms in a way that no part of the treestand touches metal. The Power-Pak is designed to accommodate large or small treestands equally well. The Power-Pak is framed in aircraft aluminum and weighs only 4 lbs. The Power-Pak installs quickly on any ATV with ordinary hand tools.

Mighty-Lite Racks

For ATV's

Great Day's Mighty-Lite Racks are the ultimate racks for four-wheelers—they combine the incredible strength and light weight of aircraft aluminum with sleek, good looks and universal fitting. Mighty-Lite Racks are constructed of 100% aircraft aluminum with a black powder coat finish. The Mighty-Lites install with Great Day's clever new accessory attachment hardware.

We offer five models to choose from:

MLFR50 Mighty-Lite Front Rack (shown)

MLRR60 Mighty Lite Rear Rack

MLRR60P Mighty Lite Rear Rack for Polaris (shown)

MLDR65 Mighty-Lite Deep Rack (shown)

MLDR65P Mighty-Lite Deep Rack for Polaris

MLDR65

Mighty-Lite Scooter Carrier

ML500SC For Trucks, SUV's and Cars

Here's an all-aluminum, light-weight hitch-receiver scooter carrier with classy looks and perfect performance. The ML500SC weighs only 42 lbs. and fits all regular 2" hitch receivers. The carrying platform measures 50" L x 28" FTB with 7" side-rails and includes 4 handy tie-down eyelets. The folding loading ramp of the Mighty Lite Scooter Carrier is 60" long when unfolded—providing super-easy loading.

The Mighty Lite platform and loading ramp includes gripping ridges to insure non-slip loading. The Mighty Lite Carrier has a weight limit of 500 lbs. Also available in a folding model, **ML500SCF**

ML500SC

Power-Ride Spare Tire Carrier

UVPR905-STC

For UTV's

Great Day's Power-Ride Spare Tire Carrier solves the problem by allowing you to take a spare tire with you. The Power-Ride Carrier works equally well attached to the frame of the UTV top or to the back of the cab.

The Great Day Spare Tire Carrier utilizes our patented Power-Ride mounting system that installs in seconds with no drilling or bolting required. The spare tire is held in place with two mounting studs and secured with easy-grip, fluted wing-knobs. The unit fits UTV's with frames (roll bars) from 50" to 64" wide, weighs only 16 lbs.

A smaller version, Model **UVCCPR705-STC**, fits narrower UTV's with roll bars measuring from 36" to 50" wide.

UTV Hitch Step

UHS300

For UTV's

The Hitch-Step attaches to the UTV hitch receiver and provides "walk-in" access to the bed of the UTV. The aircraft-aluminum Hitch-Step includes a 14" wide x 16" long folding platform that features slip-resistant gripping ridges and cable suspension that provides a 300 lb weight limit. The Hitch-Step is positioned out of the way, but at the perfect point for safe step up into UTV bed. During travel, it can be folded up.

The Truck N' Buddy

TNB2000B

For Pickup Trucks, Flatbed trailers, Equipment trailers

The Truck N' Buddy attaches to the tailgate of standard pickup trucks, to the floor of equipment trailers and flatbed trucks. The maximum weight capacity is 300 lb. It is constructed of aircraft aluminum and folds compactly out-of-the-way on the tailgate itself. The Truck N' Buddy's step/seat platform is supported by 1700 lb. test cables and has built-in traction ridges for sure footing. It also features a handy 18" grab-rail to insure safe entry onto the truck or trailer. The Truck N' Buddy is available in super-tough black powder-coat finish.

TNB2001B - The Truck N' Buddy for trucks with bed covers

- 18" folding grab-rail
- Mounts flush with the outer edge of the tailgate of a truck with a bed cover
- 300 lb weight limit

TNB3000MB - The Truck N' Buddy Magnum

- 2 18" grab-rails
- Platform supported by two industrial cables
- 400 lb weight limit

Tote Caddy Trash Can Transporter

TC5000

The Tote Caddy fits into standard 2" hitch receivers and is cleverly designed to attach to the handle of the universal trash cans used by all waste disposal services. With the simple flip of a lever, the receiver arm of the Tote Caddy moves into place for attaching to the can. Once attached, it is positioned slightly off the ground and ready for delivery. The Tote Caddy was designed to match up to hitch receivers of average height (14" - 20"). The TC5000 weighs 6 1/2 pounds and folds neatly, when not in use. The Tote Caddy is constructed of heavy-duty aircraft-grade aluminum. In some cases where the receiver is too high or too low, use of the Tote Caddy Adapter, TC5000A, is recommended.

Double Duty Hitch Adapter

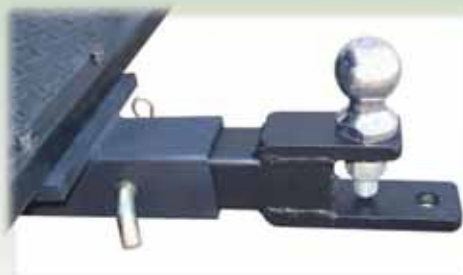

DD100

With the Double Duty Hitch Adapter, it is possible to switch from an implement that requires a ball hookup to one that uses a hitch pin in seconds. The Double Duty Adapter is constructed of heavy aircraft aluminum and provides the strength to handle 100 lbs. of tongue weight and the maximum towing limits of most vehicles.

The Double Duty adapter works with all 2" receivers

and also can be attached to hitch pin mounts.

Note: Does not include trailer hitch ball.

Side-Step Truck Step

TS300

The TS300 attaches to the trailer hitch and can be left in place at all times. The Side-Step is constructed of aircraft aluminum and has a weight capacity of 300 lbs. It features a 3" x 6" step plate with gripping ridges to provide sure footing. The Side-Step telescopes from 44" to only 34" when not in use—with the simple pull of a quick-clip pin, it can be re-extended and ready to go!

UTV Front Rack

UVFR751

For UTV's

The Front Rack mounts quickly and easily onto most full-sized UTV's and features a unique pivoting mechanism for gaining access to the front storage compartment. By removing two quick-clip pins, in just seconds the Front Rack can be rotated forward—allowing the storage compartment door to be opened and closed. The Front Rack is constructed of aircraft aluminum and provides a 18" x 50" x 7" carrying cradle with multiple tie-down points. It has a load limit of 250 lbs.

Model **CCFR751** is available for Custom Carts and has a load limit of 50 lbs.

UTV Roof Racks

UVRR750

For UTV's

The Roof Rack is the perfect means for transporting light but awkward materials. The Roof Rack is constructed of aircraft aluminum and provides a generous 22" x 50" x 7" cradle with multiple tie-down points. It installs directly to the top of any full-sized UTV quickly and easily. The UVRR750 has a load limit of 100 lbs.

Model **CCRR750** is available for Custom Carts and has a load limit of 50 lbs.

Rumble Seat

UVRS100BL

For UTV's

The UVRS100BL frame is constructed of 1", heavy-duty aircraft aluminum and finished in a deep powder-coat of black enamel. It features super-soft, cushioned pads covered PVC coated nylon. Each Rumble Seat comes with seat belts to insure safe transport of your passengers. They also feature quick-detach brackets that allow instant installation and removal. The total weight capacity for this model is 300 lbs. The Rumble Seat includes safety straps to insure bed stability. When safety straps are installed, the bed tilting function is disabled. The UVRS100BL is compatible with most UTV's with a bed size of 30" x 30" x 12" or larger and must be mounted facing the REAR of the UTV only. Seat fabric is NOT waterproof.

Deluxe Rumble Seat

UVDRS200BL

For UTV's

The Heavy Duty Deluxe Rumble Seat will add a touch of class to any popular utility vehicle. It features plush, durable, cushions covered PVC coated nylon. The Deluxe Rumble frame is constructed of 1 1/2", heavy-duty aircraft aluminum and finished in a black powder coat. Each Deluxe Rumble Seat comes with safety straps and seat belts to insure safe transport of your passengers. When installed, the safety straps disable the bed's tilting function. The Deluxe Rumble Seat also features quick-detach brackets that allow instant installation and removal to accommodate changing needs. The total weight capacity for the deluxe model is 350 lbs.

The UVDRS200BL is compatible with most UTV's with a bed size of 30" x 30" x 12" or larger and must be mounted facing the REAR of the UTV only. Seat fabric is NOT waterproof.

RS100MK and RS200MK - mounting bracket kits for both models of Rumble Seats

Hitch-N-Ride Cargo Carrier

HNR1000ATV/UTV

For ATV's and UTV's

The Hitch-N-Ride is constructed of aircraft aluminum, weighs only 21 lbs, and can handle a whopping 400 lb. load. With its low center of gravity, loading and unloading the Hitch-N-Ride eliminates a lot of backbreaking stress and strain. The "Z-Bar" attachment bar (7" rise), allows clearance for traveling over rugged, uneven terrain. The 22" X 50" X 7" (outside dimensions) carrying cradle provides lots of tie-down points to insure safe and secure transport. The Hitch-N-Ride installs in seconds with the *vehicles factory-furnished* hitch pin. **Note:** Hitch pin is NOT included.

Hitch-N-Ride Magnum Cargo Carrier

HNR2000ATV/UTV

For ATV's and UTV's

Hitch-N-Ride Magnum eliminates a lot of backbreaking stress and strain. The "Z-Bar" attachment bar (7" rise), allows clearance for traveling over rugged, uneven terrain. The 22" X 50" X 12" (outside dimensions) carrying cradle provides lots of tie-down points to insure safe and secure transport. The Hitch-N-Ride Magnum installs in seconds with the *vehicles factory-furnished* hitch pin. It is constructed of aircraft aluminum, weighs only 25 lbs, and can handle a whopping 400 lb. load. **Note:** Hitch pin is NOT included.

Hitch-N-Ride Auto-Truck Cargo Carrier

HNR1000T

For Truck and Auto

The Hitch-N-Ride easily handles all kinds of cargo – luggage, ice chests, firewood, cartons, sports equipment, hunting equipment, etc. – most things that normally require trucking. With 7 inch side-rails and handy tie-down points, the Hitch-N-Ride secures and delivers your "precious cargo" on-time, every-time. The Hitch-N-Ride is constructed of air-craft aluminum and weighs only 22 lbs. The 22" x 50" (outside dimensions) cargo cradle has a hefty 400 lb. load capacity and conveniently attaches in any 2" trailer-hitch receiver. **Note:** Hitch pin is NOT included.

Also available in a *folding* model, **HNR1000TF**.

And if you need a longer receiver bar, we offer the **HNR1000TLB** and the **HNR2000TLB**.

If you need a cargo basket with 12" sides and a 500 lb load capacity, we have the **HNR2000TB**.

Hitch Stabilizer

HS1001

The Hitch Stabilizer slips onto trailer hitches, hitch haulers—any piece of equipment requiring the use of a 2" hitch receiver—no tools needed. With two stabilizing 3/8" screws applying vertical and horizontal pressure to the hitch, side-to-side and up-and-down movement is totally eliminated. Made of high carbon steel. **Note:** The HS1001 is recommended for use with all our Hitch-N-Rides.

Hitch Extender

HE100

The hitch extender is constructed of tough **aircraft aluminum**, fits all trailer-hitch connections and provides an instant 18 inches of clearance. It's designed to fit into all 2" factory and after-market hitch receivers or bolts on when a receiver is not provided.

Hitch-N-Ride Ramp Up Carrier HNRU501

The HNRU501 features aircraft aluminum construction, 500 lbs carrying capacity and the "hard as nails" powder-coat enamel finish. The HNRU501 weighs only 48 lbs. and fits all regular 2" hitch receivers. The carrying platform measures 50"L x 28" FTB with 7" side-rails.

Note: Hitch pin NOT included

Available in a folding model, HNRUF501F

Rapid Rack Truck Window and Cab Protector RTR200

The Rugged Rack is constructed of rust-proof, super-tough, 1 1/2" aircraft aluminum and comes standard with a rock-solid black or chrome (chrome color not chrome plating) powder-coat finish. Its design features a strategically positioned framework that provides total protection from shifting loads. The Rugged Rack fits all trucks with inside bed widths from 62 to 65 inches. The heavy-duty mounting plates come complete with installation instructions and necessary attachment hardware.

Hitch-Up Pet Step HU200B

The Hitch-Up is designed for the pet without the ability to jump into a vehicle. It's the perfect platform for your dog to walk in and out with no assistance.

The Hitch-Up attaches in seconds to a regular 2" hitch receiver and folds neatly out of the way when not in use. The platform is constructed of aircraft aluminum, measures 16"L x 13.5" W and weighs only 8 lbs. The Hitch-Up comes with a super-tough black powder-coat enamel finish. Weight capacity is 300 lbs.

UTV/Zero Turn Ramp LL21643

The LL21643 is rated at a 3600 lbs. total capacity and is perfect for the 16 ft trailers that do not provide a means for loading. The loading panels on this ramp are 20 1/4" wide and are designed especially for the loading requirements of utility vehicles. This ramp handles loading and unloading UTV's, Zero-turn lawnmowers and electric-powered carts safely and effectively when using both panels. Use a single panel to load motorcycles weighing up to 1800 lbs.

Bi-Fold Ramps

Great Day's Bi-fold ramps are especially suited to ATV and lawnmower owners who are looking for a lot of performance at a reasonable price. Also, our bi-folds have never been known to strain anyone's back. With use of clever aircraft aluminum extrusions and unique designs, the light-weight Load-Lite Bi-folds live up to their name!

Great Day gives you a choice of three bi-folds that will handle vehicles with wheel bases from 42 to 48 inches wide. All three models include security tie-downs—all three fold compactly for easy storage.

Bi-Fold Lite – Model #LL42717

Bi-Fold – Model #LL44717

Bi-Fold HD – Model #LL46717

Bi-Fold Wide – Model #LL48697

LLRFC4 - repl. finger covers for all ramps (4-pk)

A55 - repl. straps for all ramps (2-pk)

LL48697

Tri-Fold Ramps

Tri-fold loading ramps are made of lightweight aircraft aluminum, they have gripping ridges on the loading rungs for sure-footed loading, quick attaching security straps for safe loading and the lightest weight of any tri-fold ramp on the market. The Tri-Fold ramp can be folded and conveniently stored between the wheels of a 4 wheeler. Great Day gives you a choice of five bi-folds that will handle vehicles with wheel bases from 42 to 50 inches wide. All five models include security tie-downs—all five fold compactly for easy storage.

Tri-Fold – Model #LL46817

Tri-Fold Adj. Lite – Model #52765R

Tri-Fold Lite – Model #LL50697

Tri-Fold Adj. HD – Model #LL60847R

Tri-Fold Long – Model #LL46827

LL50697

Max Arch Ramp

LL12894

The Max Arch features an arched design that makes it possible to load lawnmowers and low clearance ATV's with ease. Each panel measures 12" x 89" with 17 rungs and 4" spacing. This ramp weighs 23 lbs. The two panels together provide an unbelievable 1500 lbs. of holding power.

Max Arch Folder – Model #LL12894F

Super-Lite Ramps

LL14715

The "Super-Lite" is the lightest-weight, all-purpose set of ramps on the market and... it is rated with a whopping weight limit of 1500 lbs for the pair. The panels are not connected and can be used for loading vehicles with different wheel spacing widths. The 14" W x 71" L dimensions and 5" rung spacing makes the Super-Lite ideal for loading ATV's, Lawnmowers, etc. You can even use one panel as the perfect ramp for dirt bikes, small street bikes and scooters. The Super-Lite is constructed of aircraft aluminum and comes with safety straps and soft-plastic tailgate protectors. For a single panel we offer the **LL4715S**.

UTV Trailer Ramp

LL16445

The LL16445 is constructed of 100% aircraft aluminum and; combined, its two 16" x 44" panels deliver a loading capacity of 2000 lbs. It features 5 inch rung spacing and includes gripping ridges on the rungs to insure non-slip loading. It also includes plastic-coated fingers and security straps.

Spando-Flage® Allusion Headnet SF301

The Spando-Flage® Allusion Headnet is the only headnet that covers the entire face and allows you to look your prey in the eye. The new Spando-Flage® Allusion Headnets, with a more comfortable fit and a more effective, more detailed camo pattern, gets the job done like never before.

- Eyeholes can be cut to the preferred size without raveling. Caution: Do not cut prior to stretching over face – try to slit eyeholes only large enough to see well. Caution: Be careful when using sharp objects such as scissors around the eyes
- Allusion Headnets can and should be washed regularly to eliminate human scent. Washing does not cause shrinkage or loss of shape
- Allusion Headnets are available in most popular camo patterns and can be matched perfectly to hunting apparel
- Provides enough warmth to cut the early morning chill, but is ventilated to be comfortable on the warm days of early seasons.
- Ideal for all types of hunting in any season
- One size fits all

Spando-Flage® Shortcut Facemask SF315

Here's the amazing SpandoFlage® "Shortcut" Facemask - no straps, no snaps, no wires or strings. Just slip it on, pull it up and "look em in the eye!" Shortcuts have a stretch ratio of 10 to 1 and can be conveniently stored in even a shirt pocket. "Shortcuts" have all the good things that hunters have always liked about Spando-Flage® - they form to the face for perfect camouflaged cover - they "breathe" to keep you comfortable in warm weather and they hug your face to cut the chill on a frosty morning .

- Allusion Headnets can and should be washed regularly to eliminate human scent. Washing does not cause shrinkage or loss of shape
- Allusion Headnets are available in most popular camo patterns and can be matched perfectly to hunting apparel
- Provides enough warmth to cut the early morning chill, but is ventilated to be comfortable on the warm days of early seasons.

Spando-Flage® Spando-Hands SF305 Spando-Hands Gripper Gloves

Spando-Hands provide warmth, feel and camouflage. The rugged knit texture is thin enough for sensitive feel, yet thick enough to cut the chill of a frosty morning. Spando-Hands weigh less than an ounce and can be stored so compactly that an extra pair can be easily carried in a pocket.

The Spando-Hands Model 305's come with gripper dots for extra gripping power—making Spando-Hands the perfect glove for gun or bow hunting.

SF315ACU ACU Digital

SF306 Spando-Hands Regular Gloves

For those who prefer plain gloves, the Spando-Hands Model 306's come without gripper dots. All Spando-Hands can and should be washed often to eliminate human scent. Spando-Hands can be washed regularly without causing shrinking or fading. The gloves are comprised of 100% polyester fabric. Available in the same patterns as our Gripper Gloves.

Spando-Flage® HD

SF301 Allusion Headnets

SF315 Short cut Facemasks

The newly enhanced, high-definition camo patterns along with precision product dimension changes make Spando-Flage® HD the ultimate means of concealing the face and hands.

- Provides ventilation—a feature that allows normal breathing and eliminates “fogging” of glasses
- Stretches 10 to 1 and makes for universal and comfortable-fitting facemasks.
- Conforms to the natural contours of the face to eliminate the tell-tale human silhouette
- **Available Patterns:** Realtree AP and Mossy Oak

Spando-Flage® HD

SF305 Gripper

SF306 Plain

The new Spando-Hands HD gloves also include the enhanced camo patterns; but the most exciting new feature is the extension of the cuffs to accommodate bowhunters using bow releases. They too feature a much more stretchable fabric to provide a one-size-fits all. The Spando-Hands HD are available in both the “Gripper” and plain models.

Available Patterns: Realtree AP and Mossy Oak

SP306AP HD

Windfloaters™

WF400

Windfloaters™ are feather-light, natural fibers that float along with wind currents. By releasing two or three of the Windfloater™ fibers periodically, the hunter can establish an invisible line of where his scent is being carried. Windfloaters™ come in a package with enough fibers to usually last an entire season of hunting. Windfloaters™ can be used effectively from ground level or from a treestand. In mountainous or hilly terrain, Windfloaters™ are especially helpful in detecting and adjusting to changes in thermal wind patterns. In flatter terrain, a softer, almost undetectable breeze is a bow hunter's worst enemy. In these conditions, scents tend to settle to the ground closer to the source. By using only a few Windfloater™ fibers at a time, a “soft” wind can be pinpointed and dealt with effectively.

Golden Buck Odorless Oil

GBO14

Golden Buck Odorless Oil provides perfect lubrication and lasting protection for any outdoor equipment. The 1 ¼ oz. squeeze container will easily last a hunting season with normal use.

Just add a drop of Hunter's Odorless Oil before and after the hunt—protect the finish on your weapon or equipment and silence all moving parts. Net wt. 1 ¼ oz.

Brite-Spot Off-Road Utility Light

BS500

The BS500 uses High Intensity Discharge Light technology—the powerful 6000 lumen ray of light from the Brite-Spot projects a path of daylight-quality light for hundreds of yards.

The 8 inch, 12-volt Brite-Spot HID bulb is powered by the vehicle battery and uses only an amazing 3.5 amps. The Brite-Spot water-tight housing is constructed of a super-tough composite and includes an additional protective shield that protects the front of the unit. It also comes complete with an aluminum shroud that provides protection to the unit against foreign objects. The BS500 comes with a 10mm pivoting mounting base and directional handle—ideal for mounting to UTV's, Trucks, Jeeps, tractors, lawnmowers, golf carts and boats.

Quick-Draw UTV Shooting Rail

QD803-USR

For UTVs

Great Day's UTV Shooting Rail mounted between the front vertical frame bars provides the perfect shooting rest for making long, accurate shots!

The QD803-USR fits all utility vehicles and golf cart style vehicles that do not have windshields installed. Using Great Day's patented "Opposing Forces" technology, the UTV Shooting Rail expands from 42" to 62" and installs in just minutes with no special tools needed. It is constructed of heavy-duty aircraft aluminum with deep-cushioned camo padding for protection of the firearm.

Load-A-Pup Hunting Dog

LP500HD For hunting boats (transom or side mount)

The Load-A-Pup HD attaches to the transom or side of any hunting boat and adjusts to the perfect level to allow your dog to exit and enter with ease. The Load-A-Pup's platform can be positioned at water level to eliminate the "boat-rocking" problems common to other systems. The Load-A-Pup is constructed of aircraft aluminum and weighs only 7 lbs. With use of super-strong aircraft suspension cables, it will handle any size dog. It folds completely flat and compact for easy storage when not in use. The 14" X 20" platform is the perfect size for the job and is designed with gripping ridges to provide sure-footing and protection from injury to the dog's feet. The Load-A-Pup comes with a super-tough powder-coating in earth-tone gray for perfect concealment. The maximum weight capacity is 200 lbs.

Hangit Tall Portable Feeder/Game Hanger

PFH250

Hangit Tall is the first ever feeder/game hanging device truly portable enough for a hunter to set it up at one site in the woods—then move to another place in just minutes. Not only is it the perfect feeder hanger; the Hangit Tall's 8-to-1 ratio pulley and rope system makes hanging and dressing your game a snap. The Hangit Tall can be set up on a tree trunk for temporary use at approximately 8 feet high or; with use of a climbing stick or ladder, can be set up for the season at any desired height. The Hangit Tall only weighs 14 lbs. and comes complete with a sturdy 400 denier carrying bag with a shoulder strap. With its aircraft aluminum construction and ratchet strap attachment system, the Hangit Tall has a whopping lifting weight limit of 250 lbs.

X-treme Hand Scrub

XHS

XHS is the first all-natural, biodegradable, scent-free and odor removing handscrub on the market. Originally developed for the medical industry, XHS is designed to clean by a process called "Absorbency". This process will easily clean and exfoliate the hands by absorbing and removing oil, grease, and bacteria commonly found in day to day activities. This is a must for the outdoorsman as they are likely to encounter such substances while hunting, fishing, or camping. A couple of added bonuses of XHS are it is completely scent free and with no pumice or solvents added it will not abrade or dry out the skin.

XHS is the only hand scrub that has been tested and proven to remove 99.9% of bacteria from hands when used as directed. XHS being in powder form it is 70% lighter than its liquid competitors and virtually eliminates shelf life. Which in turn, will provide a substantial drop in shipping cost.

Although XHS targets the outdoor marketplace such as hunting and fishing, XHS has met and exceeded the guidelines for food services set forth by the FDA.

Therefore, making XHS equally as effective for use in food-handling services.

BIG-TOP CANOPIES

The Big-Top canopies measure 36" wide and 46" long, covering and shading the operator at all times. The Big-Top canopy fits all zero-turn riding lawnmowers with roll-bars and most category 1 tractors. It installs quickly with a minimum of drilling or use of special tools. The frame is constructed of 1½", aircraft aluminum and adjusts for back or forward leaning roll bars. The Big-Top cover is made of heavy-duty 1/8" UV resistant, crack proof polyethylene. All metal components are powder-coat painted for years of dependable service. Fits rollbars 29" to 36" wide (outside measurements).

Available in two models:

LNP1012 for zero-turn lawnmowers

TAP1000 for category 1 tractors

Lawn Pro Hi-Hitch

LNP HH650 for lawnmowers with rear plate

The Hi-Hitch has dual attachment points—one for a trailer hitch ball and one for a hitch pin. The Hi-Hitch adds 12" of height to the lawnmowers tongue. The LNHH650 is braced and positioned perfectly at just the right height to keep trailers level and well-balanced. Its weight capacity is whatever the lawnmower's stated tongue capacity is. Installs in easily and accepts all conventional trailer-hitch balls (trailer hitch ball not included). The Hi-Hitch mounts to most conventional riding lawnmowers with a minimum of drilling or modifications. Brackets mount 12" - 14" wide.

Tag-Along Rack

TA401 for tractors and mowers with rollbars 25" - 45"

Great Day's universal-fitting Tag-Along Rack mounts to the back side of a tractor or mower's rollbar. The Tag-Along includes an aircraft-grade aluminum frame and features cushioned holding cradles with Velcro straps to secure the items in place. It attaches with U-bolts and adjusts to roll bars from 25" to 45" — fitting most popular brands and models of tractors **without** cab enclosures.

Tractor Tool Tray

TT400 for tractors and mowers with rollbars 25" - 45"

Great Day's Tool-Tray basket measures 24" long x 10" high x 10" deep and attaches securely to the tractor or lawnmower's roll-bar. The frame of the Tool-Tray is constructed of heavy-duty aircraft aluminum and enclosed with ¾ inch raised expanded aircraft-grade aluminum. The unit is finished with super-strong, rust-proof powder-coat enamel. It also includes a leveling mechanism to adjust to roll bars that are not perfectly vertical. The attachment bar expands from 25" to 45" (inside measurements) to fit all category 1 tractors that do not have cab enclosures.

TTIH402 - Tool Tray Implement Holders can be added to hold an additional item horizontally behind the basket such as a gun, shovel, weed eater, etc.
